TY IS FAITHFUL,
SAYS UNDERWOOD

YORK, Aug. 23.—"I come with ge to the Democracy of the e. We have kept our pledges, e obeyed the will of our con- y was the declaration of Oscar erwood, chairman of the ways ans committee of the house of atives at the banquet given National Italian Democratic ere tonight. Members of the d means committee were guests e and Mr. Underwood delivered ical address.

PROG. TRAINED FOR WOMEN

Prominent Speakers to Ad- dress International Meet- ing in October

The program of the International Congress of Farm Women, which meets here the week of October 16, at the same time as the Dry Farming con- gress, has been outlined in a general way, and many of the speakers asked to participate have accepted. Among those who have positively accepted are the Rev. Warren H. Wilson of New York, famous for his work among the rural churches; Prof. W. W. Hays, as- sistant secretary of the department of agriculture, Washington; and a number whose direction is great work has been done in contrasting the rural schools and raising the standards of educa- tion; Mary Pierce VanZile of the do- mestic science department of Kansas Agricultural college; Mrs. John A. Widroose of Utah Agricultural college, who is said to conduct the world's mod- el kitchen; Mrs. Scott Durand, who manages "Crab Tree Dairy," near Chi- cago; Mrs. Franklin E. Brooks of Colo- rado Springs, who will conduct the department of farm recreation. As outlined the general program is as fol- lows:

First Day.
Morning—"Equipment of the Home," "Beauty in the Home Within and Without," "Food Values."
Afternoon—Demonstrations in cook- ing by the department of domestic sci- ence of Colorado Agricultural college.

Second Day.
Morning—"Laws of Physical Life in Relation to the Food," "Conservation of Time and Strength," and "The Cash Value of Rest," "Laboring Devices for the Home."
Afternoon—Demonstrations in emer- gency nursing and simple home hy- giene.

Third Day.
Morning—"Economic Value of Women and Children on the Farm," "Dair- ing," "Cooperation of Granges and Clubs with the Farmer's Wife."
Afternoon—"Care of Infants and Young Children," "The Care of Defec- tive Children."

Fourth Day.
Morning—"The Country Church," "The Reorganization of the County School," "Recreation, Mental and Physical, in the Home and Community."
Afternoon—"The Girls on the Farm," "The Boys on the Farm."

Companion of Girl Chokes Assaultant to Death in Her Sight

MANSFIELD, O., Aug. 23.—An un- identified man was choked to death to- night by the companion of a girl whom he attacked. Walter Cloyer, a florist and Miss Harriette Shafer, of Belleville, both attending a teachers' institute, were seated in a park to- night, when a man confronted them "with a revolver and ordered them to accompany him across the adjacent railroad tracks.

Under threat of death they com- plied, fearing to make an outcry, but when their assailant was momentarily off his guard, after he had compelled his victims to lie down on the ground, Cloyer seized a piece of earth and struck the man in the face, blinding him. Cloyer then seized him around the neck with both hands, and choked him to death.

MADERO AFTER LOOTERS

CUAUTLA, Morelos, Mex., Aug. 23.—That Francisco I. Madero's methods of restoring peace are not lacking in vigor was indicated today when, as a result of his visit the Juquila notices were posted, stating that looters would be given just one day to return stolen property; that failure to do so would result in trial by court-martial, whose judgment probably would be death. In Juquila, Madero inspected the work of mobs, whose members are said to have been bandits rather than Zapatistas. Most of the larger stores were looted. Madero made a speech, in which he condemned the work of the rabble and assured the citizens that the guilty ones would be severely punished.

General Hernandez, a former revolu- tionary officer, is in command of the local garrison. He and Madero con- ferred for some time. Hernandez an- nouncing at the conclusion of the con- versation that drastic measures would be used in restoring normal conditions. He has already arrested a number of looters and one man caught in the act was shot.

SCENES DURING THE GREAT RAILWAY STRIKE IN ENGLAND, AND THE LEADER OF THE STRIKERS.

Liverpool Strike Situation Acute; Break Threatened

LONDON, Aug. 23.—Hopes that the labor troubles at Liverpool would be settled quickly have again been dis- appointed. Tom Mann and other strike leaders arrived in London tonight from Liverpool and held a conference with representatives of the Amalgamated Society of Railway Service and the Transport Federation, as a result of which an ultimatum was sent to Pri- mier Asquith, Sydney Buxton, presi- dent of the board of trade, and the lord mayor of Liverpool, demanding the reinstatement of the Liverpool tramway men by noon tomorrow.

WILEY AND WILSON CAMPS SPLIT PURE FOOD MEETING

DULUTH, Minn., Aug. 23.—Rival factions—those who stand for Sec- retary of Agriculture Wilson and those who stand for fall with Dr. Wiley in the Wiley-Wilson controversy—developed today in the convention of the National Association of Food and Dairy depart- ments, which is being held in this city. The factional split was emphatic- ally shown after a divergence of opinion showed on the convention floor.

NEGRO COOKS FIGHT IN PULLMAN CARS

CINCINNATI, O., Aug. 23.—Pas- sengers on an eastbound Baltimore and Ohio train leaving here early to- night were thrown into a panic when two negro cooks ran through the coaches with knives in their hands fighting desperately.

STIMSON TO INSPECT MILITARY STATIONS

WASHINGTON, Aug. 23.—In order to become better acquainted with the military stations of the country, Sec- retary of War Stimson, accompanied by Gen. Leonard Wood, chief of staff of the army, will start on a trip of in- spection of army posts and fortifica- tions in September.

ONLY 134 MILES FROM HIS GOAL

ATWOOD HOPES TO LAND IN N. Y. THIS P. M.

Aeroplane Angers Farmer Be- cause Sightseers Strip Near- by Orchard of Fruit

ATWOOD, N. Y., Aug. 23.—On the last tip of his reception from St. Louis to New York, Harry Atwood, tonight, his airplane pitched to an apple tree on top of a hill here, overlooking the Hudson river and Albany, eight miles to the north. The aeroplane Atwood expects to land here this afternoon. To complete his journey to New York, landing at Sheepshead Bay, with a possible pro- longatory circle to Governors Island.

In landing the Boston aviator will have completed the longest flight through the air ever made in a single day, however, that is, he will hold the world's record of a cross- country flight, and he believes that he has set an example in aviation that will result in more long-distance flights, and a gradual elimination of ocean crossings.

Atwood hopes to sail the 134 miles between here and New York before mid-afternoon. He hopes to make his first "hop" the longest so that he will be able more adequately to appreciate the actual time of his appearance over New York.

To Stop at West Point.
Atwood expects to leave here at 7 a. m. tomorrow. He has decided to stop at West Point, 34 miles from here. According to this schedule, he will reach Rhine Cliffs, shortly before 8 o'clock and West Point about 9. He purposes to start from West Point in the morning, taking an hour for the trip from West Point. When he landed here, Atwood, in 10 days, had flown 1,131 miles from St. Louis without mishap, more serious than losing his way in a run from Eugene, N. Y., to Auburn. His biplane has endured the test well. It was only because of a slight wearing of the bearings of his engine, that Atwood decided not to continue his flight tonight. His me- chanics prepared to work on the bi- plane all night, attaching aluminum pontoons for possible landings in the river. Leaving here, probably early, Atwood will take a straight course down the river. His appearance over Rhine Cliffs, opposite Kingston, will mark the breaking of the world's record for cross-country flying, for at that point he will have exceeded by 12 miles the present record of 1,164 miles.

Disregarded Money Offers.
Atwood's flight today of 66 miles, be- tween Fort Plain and Castleton, was the only day's run which he started and ended before noon. From Fort Plain, where he ascended in a fog at 7:25 a. m., he swept through the Mohawk valley, "turned the corner" for the south at Albany and landed here at 9:12 a. m. He stopped 15 minutes en route for gasoline, making his entire flight time one hour 22 minutes.

SEIDEL TRIAL ON

NEW YORK, Aug. 23.—The prosecu- tion scored a point this afternoon at the trial of Paul Seidel, a bellboy, 17 years old, accused of killing William H. Jackson, an aged broker when he fell from the verbal confession alleged by the police to have been made by the defendant was placed before the jury after Judge Crain had overruled an objection of Seidel's counsel.

YOUTH KILLS SELF ACCIDENTALLY

INDIANAPOLIS, Ind., Aug. 23.—Ce- leste Black, 15 years old, whose family recently removed from this city to Denver, today accidentally shot and killed himself with a revolver at the country home of George Shay, near here. Young Black was to have entered Harvard university this fall.

FATAL EXPLOSION

MIDDLESBORO, Ky., Aug. 23.—Two Italians were killed, six probably fa- tally wounded and several others hurt in an explosion at Boushgan, Harlan county, at the works of the Wisconsin Steel company. The Italians were opening mines for the company and a large quantity of dynamite exploded.

CENSURE MANY INSURANCE FIRMS

Concours Are Guilty of "Un- conscionable Practices," Says Committee Report

CLAIMS UNJUSTLY SHAVED
Recommends That Drastic Fed- eral Health and Accident Law Be Enacted

MILWAUKEE, Wis., Aug. 23.—Im- portant legislation for the control of insurance companies doing an indus- trial health and accident business, is proposed in the report of the special committee of the United States com- missioners of the United States, made public today. The basis for the legisla- tion proposed is given in reports on the examination of 11 companies in which nearly 2,000,000 policies were issued. In discharging the duty assigned to them, the committee ex- amined the specific claims, examined where the amount involved in consid- erable, the percentage of policy or re- ported claims is high, indeed, very much too high to be explained by error of judgment or carelessness.

Companies Investigated.
Standard Accident Insurance com- pany, Detroit.
United States Health & Accident In- surance company, Saginaw.
Massachusetts Accident company, Boston.
Great Eastern Casualty company, New York.
Federal Casualty company, Detroit.
Equitable Accident company, Boston.
Continental Casualty company, Ham- mond, Ind.
North American Accident Insurance company, Chicago.
National Casualty company, Detroit.
Fidelity Accident company, Saginaw.
General Accident Fire and Life In- surance corporation.
American Assurance company, Phil- adelphia.
Phoenix Preferred Accident company, Detroit.
German Commercial Accident com- pany, Philadelphia.

The report says of one company: "One Company 'Without Conscience.'"
"It is impossible in language fitted to an official document aptly to characterize what seems to have been the practices and methods of the industrial department of this corporation in set- tling with its policy holders. It ap- pears to have resorted to every pos- sible means not merely to protect itself against imposition, for which it could not be criticised, but also, and more particularly, to cut and shave down claims apparently without conscience and certainly without right."

German Cruiser Is to Have Torpedo Practice Near Buzzards Bay

WASHINGTON, Aug. 23.—The plan of the German cruiser Bremen to conduct torpedo exercises in Buzzards bay, it was said today by officials of the navy department, is not an unusual procedure on the part of a foreign war- ship. If the practice is to be held within the three-mile limit, it was added, permission undoubtedly has been or will be asked of the United States. Similar maneuvers previously have been held in American waters by foreign men-of-war, especially in Chesapeake bay. It is also pointed out that United States war vessels often practice in foreign waters, the Asiatic fleet frequently using Chinese waters.

NEW BEDFORD, Mass., Aug. 23.—The Bremen remained at anchor at the entrance to the harbor, seven miles from the city, tonight. A boat from the cruiser came in for the mail late in the day and it is expected that only on these daily visits to the postoffice will men from the Bremen be seen on shore.

It is expected that the Bremen will hold her torpedo practice far enough from the shore so that she will not be obliged to strike a post.

THE HUB

Men's and Boys' Department, Main Floor.

BODY OF WOMAN ROBBED AND ASSAULTED FOUND

TELLURIDE, Colo., Aug. 23.—The body of Mrs. Lee Borg, who mysteriously disappeared near here last Thursday, was found this evening at the bottom of a 700-foot cliff. She had been robbed and assaulted.

Mrs. Borg was 25 years old and the wife of a machine man employed in the Tombay mine which is six miles from Telluride.

Last Thursday she left the mine with \$150 which she intended to deposit in the bank at Telluride. The road is a well-traveled thoroughfare and she evidently had no apprehension of danger, but she never appeared in Telluride and although searching parties had been looking for her constantly since Thursday night, no trace of her was heard until the body was found this afternoon at the bottom of the precipice over which it had been thrown.

The money and a watch which she had when she left the mine were missing.

It is believed that at least two men participated in the assault and murder. The body was brought to Telluride this evening. Mrs. Borg had been married two years.

BEATTIE JURY CHOSEN

CHESTERFIELD COURTHOUSE, Va., Aug. 23.—The jury which will decide whether Henry Clay Beattie, Jr., of Richmond, shall go to the electric chair convicted of wife murder, was completed today. Tomorrow morning the commonwealth will call its first witness.

All but three of the jurors are farmers.

Beattie conferred with his lawyers and studied intently the faces in the full panel of 16 men before the defense decided on its four eliminations. Then, after a moment of whispered conversation with H. M. Smith, Jr., his chief counsel, the prisoner nodded and the clerk announced that the names of the four farmers selected Monday were dropped from the list.

In charging the jurors, who will be kept during the trial at an old tavern near the court house, Judge Walter A. Watson gave the law of Virginia as applicable to homicide. As the indictment covers all degrees from first degree murder to involuntary manslaughter, he explained that the defendant might be found guilty accordingly.

TAFT MAY HAVE OPEN-AIR SPREAD IN DENVER

DENVER, Aug. 23.—The marble pavilion in Cheeseman park may be the stage setting for a great open-air dinner in honor of President Taft when he visits Denver, about September 29 or 30.

The chamber of commerce is determined to give the chief executive a unique entertainment. Here, no decision has yet been reached as to what form this entertainment will take, but the suggestion that Cheeseman park, with its green expanse and superb view of the mountain range, would make an ideal site for an outdoor spread, has caught the fancy of some members.

Each date of the president's coming is not yet known. The young men of the chamber, who have raised \$1,000 of the \$5,000 needed

for the public lands show, and who are becoming active in municipal affairs, will probably have charge of the presidential reception. It is resolved to make Mr. Taft's visit here a notable affair that will cause favorable comment all over the United States on Denver's hospitality and originality.

SPANISH WAR VETERANS OFFICERS ARE ELECTED

OKLAHOMA CITY, Aug. 23.—Atlantic City was selected as the meeting place next year by the Spanish War Veterans.

The following officers were elected: Commander-in-chief, Maurice Simmons, New York city. Senior vice commander, O. P. Storm, Dallas, Texas. Junior vice commander, Robert R. Rhap, Chicago.

Inspector general, Robert F. Silvers, Colorado. Surgeon general, M. G. Coker, Kansas.

"I was cured of diarrhoea by one dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes M. E. Gohardt, Oriole, Pa. There is nothing better. For sale by all dealers.

MOOSE ORGANIZATION WINS; INSURGENTS DEFEATED

DETROIT, Mich., Aug. 23.—The organization element in the Loyal Order of Moose, now assembled in annual convention, was overwhelmingly victorious in yesterday's election of supreme officers, according to the results as given out officially today as follows:

Dictator, Arthur H. Jones, Indianapolis, Ind.

Vice Dictator, Ralph W. M. Donges, Camden, N. J.

Prelate, Walter E. Dorn, San Francisco.

Treasurer, D. F. Crawford, Pittsburg, Pa.

TO INVESTIGATE BANK ACCT. OF ALFRED MULLER

DENVER, Aug. 23.—Officials of the National Jewish Hospital for Consumptives will investigate the personal bank account of the late Alfred Muller, former secretary of the hospital association, to determine whether he concealed any funds before his death. Attorney Ernest Morris, counsel for the hospital, stated today that he believed such an investigation would reveal any move of this kind.

Mrs. August Belmont, wife of the New York traction magnate, and formerly the actress, Eleanor Robson, who was considerably embarrassed by the United States customs officials upon her recent arrival home from abroad. A \$15,000 diamond brooch and pin was seized by one of the inspectors through a misunderstanding. It was a wedding present, bought in this country and not subject to duty, nor was it necessary to declare it. The inspector, who only wanted to see if it compared with another pin for which they have been searching. In the meantime, Mrs. Belmont had departed. An hour later the pin was returned to Mr. Belmont at his office with apologies from the officials for the overzealousness on the part of the inspectors.

MANY TOPICS SLATED FOR GOVERNORS' MEETING

SPRINGLAKE, N. J., Aug. 23.—Plans for the annual conference of governors of the states of the Union to be held here September 12 to 16 were made public today after a consultation of Governor Wilson, of New Jersey.

HOOD CELEBRATION AT RATON, N. M.

RATON, N. M., Aug. 23.—The state celebration held here today was by the dedication of the new B. F. O. E. Forty-second flags and purple and blue decorations in evidence about the city. Among the out- guests were Governor William and Judge C. J. Gavin of Den-

WILL STUDY AMERICAN INDUSTRY

Aug. 23.—The French gov- ernment has decided to establish in the United States a permanent study of industrial, tech- nical and commercial methods. Leclercq, chief engineer of bridges of France, has been named head of the mission, which will leave New York September 1.

TAFT WANTS CREDIT FOR ANNEXING CANADA

RIA, B. C., Aug. 23.—That Taft sought to secure for a place in the history of the man who laid the founda- tion of the severance of Canada from the United States and its inclusion in the States by means of the reci- procity agreement, was the declaration of Premier Richard McBride, of Columbia, in a speech at Dun- smuir.

McBride said that the re- ception of the United States had been the raw material was heard of the United States and that the United States and combinations were controlling its resources by the reciprocity pact.

News of Local Courts

Michel Wasserman was granted a divorce from Rayner Wasserman in the county court yesterday on the ground of desertion. The couple were married in Johannesburg, Transvaal, May 1, 1903. In 1909, Wasserman claims he decided to remove to America, but his wife refused to accompany him. Her present whereabouts are unknown.

Al McMahon was sentenced to six months in the county jail yesterday by Justice Dunnington on a charge of obtaining \$10.35 under false pretenses. McMahon, it is claimed, received the money from the Pioneer Brewery in Manitou, after he had called up by telephone saying that he was John Hawkins of Divide, and asking that the amount be paid upon request.

Suit for divorce has been filed in the county court by Rona May Kelso, who charges Clyde E. Kelso with cruelty. The couple were married in Quinlan, Okla., February 14, 1908. Mrs. Kelso asks for the custody of her 3-year-old child.

Alleging that M. E. Bright has been guilty of acts of cruelty, Hazel Bright has filed suit for divorce in the county court. The couple were married "little more than a year ago, the ceremony taking place in Fort Morgan March 10, 1910.

The case of the Red Cross Pharmacy company against George G. Birdsell, as sheriff, was disposed of in the district court yesterday, the court finding for the plaintiff. The defendant was given five days in which to file a motion for new trial. The action involved a replevin writ issued several months ago.

Pending a temporary adjustment out of court, the hearing in the case of the Holland Dairy company against George A. Taft did not come up in the district court yesterday. Plaintiff asks for an injunction restraining Taft from diverting waters from a spring used to irrigate crops.

A case in which it is probable that few words will be spoken is set for trial in Justice Gowdy's court Monday morning. The plaintiff, Mrs. E. A. Chaney, and the defendant, W. D. Brittelli, are both deaf mutes. Mrs. Chaney alleges that Brittelli struck her and threw her out of the house. Brittelli declares that the woman sought to make trouble in his family and that he did nothing more than to order her away.

Emil Goodford was sentenced to 15 days in the county jail yesterday by Justice Gowdy, on a charge of petty larceny. Several days ago he found a pocketbook lost by Miss Edith Kreger, of Fort Scott, Kan., and appropriated \$20 of the contents. The money was sent to brother in Ottumwa, Ia., but the letter was intercepted and the money was returned to Miss Kreger. The latter refused to prosecute and Goodford was convicted on his own story.

A ONE-DAY TRIP OF WONDERS
The wonderful ride to the still more wonderful gold camp of Cripple Creek is acknowledged by all travelers to be the grandest in the world.

CENSURE MANY

(Continued From Page One.)
claims of considerable amounts; while in at least two of such companies these conditions are so shocking as to call for immediate and emphatic reforms."

The report concludes with 24 recommendations, the most important of which are:

Recommendations.
That a standard health and accident provision law be enacted; that provision for change of occupation should be permitted only when the insured has actually changed his occupation; that the policy fee be abolished; that all industrial agents and collectors be licensed by the state; that frequent examinations, covering not only financial conditions, but also treatment of policy holders, be conducted either by the individual states or by a committee of the convention; and that publicity be given to the results of all such examinations.

The report also recommended that the present investigation be continued, to the end that all companies doing an industrial health and accident business may be examined. The commission asked that the Continental Casualty company, National Casualty company and Phoenix Preferred Accident company make changes of employees connected with adjustments.

The General Accident, Fire and Life Assurance corporation is asked to remove the heads of several departments. In this connection the committee states the company has signified compliance.

HAW SILL SAYS HE IS NOT INSANE

PITTSBURG, Pa., Aug. 23.—An answer was filed today by Harry K. Thaw, through his attorney, former Governor Stone, to the petition of his wife, Evelyn Nesbit Thaw, in which Judge Davis was asked to appoint a lunacy commission to take charge of the income of Thaw in this state and to provide for the support of the wife. Thaw's income is said to be \$60,000 a year.

Thaw says that the verdict of the jury in New York state was not a finding that he was insane and that a decree confining him in a lunatic asylum was statutory and not a proceeding as to lunacy. He contends that the fact that he is still confined in the Matewan hospital under the order of court, does not judicially nor in any way establish his present insanity.

In the second part of the answer Thaw states:
"Your affiant is not at present insane. He is quite capable of attending to his own affairs, and does attend to his own affairs. He transacts his own business. If there were any derangement mentally whatever, the affiant has entirely recovered from it and is now in the possession of all his mental faculties."

The Duke of Brambilla is performing daily operations in the Italian hospital, New York, having come to the United States to study American surgery.

HUGHES CITES OWN LAW TO POSTAL AUTHORITY

NEW YORK, Aug. 23.—Justice Hughes cited his knowledge of the postal affairs against that of Third Assistant Postmaster General Britt, the next witness. Mr. Hughes wanted to know the cost of handling various classes of second-class matter. Mr. Britt knew of no second-class matter classification further than the original one.

Justice Hughes thereupon directed his attention to the laws of 1906, providing for the weighing of second-class matter according to a score or more of classifications named in the enactment. Both Mr. Britt and Postmaster General Hitchcock promised to furnish the commission, in lieu of absolute data, the best figures obtainable for the various classes.

6,752 CRATES STRAWBERRIES FROM STEAMBOAT SPRINGS

STEAMBOAT SPRINGS, Colo., Aug. 23.—Figures compiled today by the Steamboat Springs Shipping association show that 6,752 crates of strawberries, or more than 22 cars, were shipped from here during the 1911 season. The sale of the crop is placed at \$18,777.55.

The earl of Yarmouth, former husband of Alice Thaw, who has reached the end of his financial string. He has formally become a bankrupt, a receiver taking possession of Abbeymeade, the country seat at Bourne End, where the earl led so luxurious a life during the first years of his marriage to his American countess.

It is presumed that whatever of value is left in the historic house will be sold for the benefit of the almost countless creditors whom the earl has been holding off for years.

The father of the earl, the old Lord Hartford, it is said, has refused to advance a farthing to save the son from bankruptcy.

GRANDMOTHERS USED SAGE TEA

To Darken the Hair and Restore Gray and Faded Hair to Its Natural Color.

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the value of our grandmothers in using "sage tea" for their hair and are fast following suit. The present generation has the advantage of the past in that it can get a ready-to-use preparation called "Wyeth's Sage and Sulphur Hair Remedy." As a scalp tonic and color restorer this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers. This remedy is sold under guarantee that the money will be refunded, if it fails to do exactly as represented. This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agents, Colorado Springs Drug Co., 101 S. Tejon street; Pikes Peak Pharmacy, 115 E. Pikes Peak avenue.

MORE THAN 25,000 G. A. R. MEN NOW IN ROCHESTER

ROCHESTER, N. Y., Aug. 23.—Not in several years have the Grand Army veterans turned out in as large numbers as for today's parade. More than 25,000 had registered up to last night and early morning trains brought in thousands of Grand Army posts. The main parade began to move as soon as the presidential parade reached the reviewing stand in Washington square and President Taft had taken his seat.

Awaiting the president's arrival at the New York Central station was the Sixty-ninth battalion United States regulars from Fort Porter, Grand Army officers and the local reception committee.

After reviewing the parade President Taft was driven to the residence of former Senator and State Treasurer Thomas D. Dunn. Early plans for his entertainment included an automobile ride about the city at 4 p. m. He will later go to the East avenue residence of Henry A. Strong, where he will be entertained at dinner with Senator Dunn and a few other guests. He will leave Mr. Strong's residence at 9:30 o'clock for Convention hall to attend the camp fire and address the veterans. At the conclusion of the services at Convention hall the president will go direct to his car at the New York Central station. He will leave Rochester at 6:55 p. m.

RECIPROCITY OPPOSITION MAKING MANY SPEECHES

TORONTO, Ont., Aug. 23.—R. L. Borden, chief opposition leader, addressed a large audience tonight, denouncing the reciprocity agreement. A speech against the pact was also delivered by Thomas White, vice president of the National Trust company, one of the 13 life-long Toronto Liberals, who signed a manifesto against ratification of the agreement when it was first introduced in the Canadian parliament.

Miss Madge Claiborne, the only woman sign painter in New York at work. Miss Claiborne, a pretty Galveston girl, whose great-grandfather was a governor of Louisiana, paints signs for the big advertising company, not because of love for the work or to create a sensation, but to earn her livelihood. She is saving her money so as to be able to study art. Miss Claiborne has done much creditable work in miniature, but she was obliged to temporarily forsake her favorite work for her present employment. One of the unusual sights of the metropolis is this young woman standing on ladders and scaffolding many feet above the heads of pedestrians and wielding her brush on some giant bull, carter or safety razor.

"How long will this continue?" commented Mr. Sifton. "The United States openly avows its intention to secure continental free trade. The Canadian government, though it will not agree, when we have become involved in the operations of this treaty, we shall be so much in the grip of the United States that we shall be compelled to agree in a proposal of free trade in manufactures."

WINNIPEG, Man., Aug. 23.—An interesting feature of the dominion election campaign today was a vigorous denunciation of the Laurier government by Joseph Martin, M. P. for St. Patricks, London, England, former attorney general of Manitoba, and once premier of British Columbia. Martin is a liberal and favors reciprocity.

"Reciprocity will undoubtedly mean more money for Canada and more money for Canadians, and would be a good thing for Canada in this respect," said Martin. "But, in my opinion, Sir Wilfrid Laurier, during the last 10 or 12 years has given Canada the worst administration in the whole world. I know there is more corruption in Canada today than there ever has been in the past. A verdict in favor of the government in the present election would mean condemnation of this state of affairs."

With election day only four weeks off the campaign is warming up. In centers of population, party organization is making its influence felt, but the opposition in Manitoba is handicapped by the absence of Premier Roblin, who has been seriously ill since his return from the coronation.

CATHOLIC SOCIETIES TO MEET IN LOUISVILLE

COLUMBUS, O., Aug. 23.—With the election of officers and the selection of Louisville over Los Angeles and Birmingham as the convention place next year, the business session of the American Federation of Catholic societies closed today.

President Edward Feeney of Brooklyn was selected, as was Secretary Anthony H. Duff of St. Louis. Treasurer C. H. Schulte of Detroit, Marshal J. W. West of Kansas City, and Colonel Beaver Chief Horn Cloud of the Sioux Indians, South Dakota.

SHERIFF'S POSSE ESCAPE AMBUSH ON TRAIL

DURANGO, Colo., Aug. 23.—Escaping an ambush Monday night which is laid at the door of Samuel, David and John Truby, brothers, and an unknown Mexican, Sheriff Dufur and a posse are still on the trail and expect to overtake their quarry late today. Sheriff Dufur is endeavoring to arrest Samuel Truby for the murder of a Mexican sheep herder near Farmington, N. M., three years ago. The ambush was laid in Largo Canon, 48 miles southeast of Durango, Colo., in San Juan county, New Mexico.

200 VACANCIES. 160 CANDIDATES

WASHINGTON, Aug. 23.—With 200 vacancies existing, only 160 candidates from civil life have applied to the war department for appointments as second lieutenants in the army. The examination of these candidates will take place in various parts of the country on September 5. The war department will not consider any application after September 1, and by that time it is believed, not more than 175 candidates will have presented themselves. War department officials are disappointed over the small number of applicants.

Brazil is to have a dam only slightly smaller in capacity than the famous Roosevelt dam in Arizona.

olve the United States in a controversy over the obligation of certain southern states to pay bonds issued during reconstruction days which have been repudiated; it is sufficient to say that such a question would not come within the treaty, for the treaty only affects cases hereafter arising, and the cases of the southern bonds all arose years ago.

WHAT IS A MARASCHINO CHERRY? ASKS GOVERNMENT

WASHINGTON, Aug. 23.—The question, "What is whiskey?" not having been answered officially by a presidential ruling, the pure food experts of the department of agriculture now have taken up one of the other component parts of the seductive cocktail and have propounded the query, "What is a Maraschino cherry?" They hold that Maraschino cherries should be bottled in Maraschino liquor and not in a compound of benzaldehyde, oil of almonds and glucose. The government has asked for the seizure and condemnation of 15 cases of what it says are only imitations of real Maraschinos. The libel was filed in the district supreme court today, the alleged false Maraschinos being in the possession of a local wine distributing concern.

UPTON SINCLAIR WILL SUE FOR DIVORCE

NEW YORK, Aug. 23.—Upton Sinclair, author and Socialist, issued a statement tonight saying that as soon as he could get in touch with his lawyer and have the necessary legal papers drawn, it was his purpose to institute suit for divorce. He said he would name as corespondent a young western poet, who recently was a visitor at the Sinclair summer home at Arden, Del. Mr. Sinclair, in 1900, was married to Meta H. Fuller.

NEW RECORD MADE FOR ARMY WIRELESS APPARATUS

KANSAS CITY, Aug. 23.—Company D, United States signal corps, stationed at Fort Leavenworth, established a new record for wireless message transmission by an army field service apparatus today when a message was sent from Kansas City, Kan., to Atchison, Kan., 54 miles.

DESERT CITY. FEARING BANDITS

BROADSVILLE, Tex., Aug. 23.—Persons arriving tonight from Colombrast, Mexico, say the inhabitants have deserted the city in anticipation of an attack by bandits. Rumors of an attack were prevalent there Friday and Saturday when all the women and children were sent across the river to Santa Maria or to Matamoros.

A Word to the Wise Is Sufficient

THE WISE MEN of today are like the WISE MEN OF OLD, they buy an *Inheritance* by investing in REAL ESTATE.

You can't expect *your money to earn money for you* if *you* don't invest it judiciously. You can make an investment in PROSPECT LAKE ADDITION LOTS without ever realizing that *you* are making an investment. *It is so easy for you* to accumulate on this plan of ours. If *you* have not already investigated it, do so at *your* earliest possible convenience.

A MILLION DOLLARS is a large sum of money. You probably would not be any happier if *you* had a *million* than *you* are now, but there is no doubt but that *you* would be willing to take the chance if *you* had the opportunity.

WE offer *you* an opportunity, not to make a *million*, but to make a *safe, profitable investment* and not only that, but an *opportunity to own your own home*, which will make *you* as happy as though *you* had a *million*.

A FEW CENTS a DAY is all *you* need to save; that doesn't seem like much but when *you* save it for a *year* or *two*, *you* own *your own* home in PROSPECT LAKE ADDITION. *Isn't it worth trying?* "NOTHING VENTURED, NOTHING GAINED" is an old adage that *you* should remember. *You* should also remember that *you* should exercise judgment and care in *selecting your investments*.

PROSPECT LAKE ADDITION LOTS are the best from every viewpoint.

THINK OF IT! A *lot* in this *addition* at from \$175.00 and up. NO INTEREST. NO TAXES. *Just a little down and a little at a time.* *You* can do it. *Come, let us tell you all about it* and show *you* just how easy it is.

REMEMBER, IT'S not what *you* earn but what *you* save that counts. THE NICKELS, DIMES and QUARTERS make the DOLLARS and the DOLLARS make the HOME. *It's your opportunity.*

THE HUTCHISON-HILL LAND SALES CO.

105 EAST PIKE'S PEAK AVENUE

GENERAL AGENTS

FAST FREIGHTS CARRY 2ND CLASS MAIL AFTER SEPT. 1

WASHINGTON, Aug. 23.—Arrangements having been perfected by the postoffice department for the transmission of second class mail, consisting of magazines and periodicals, by fast freight beginning September 1. An order was issued today formally authorizing the scheme, as heretofore announced.

It was with the idea of reducing the expense of transporting the greater part of second class mail that postmaster General Hitchcock took advantage of an old statute permitting the department to send it by freight.

out the instructions with respect to the delivery of fast freight mail. Publishers have assured the postmaster general that they will be satisfied with the arrangement and assurances have been received from the railroads that the mail can be delivered promptly.

TATF TO DECIDE INTERESTS NATIONAL BANKS CAN OWN

WASHINGTON, Aug. 23.—President Taft will decide if the government, under the terms of the national bank act, can permit national banks to own interests in other banking institutions. Attorney General Wickersham and Secretary MacVane have disagreed on the question, which was raised by the attorney general's investigation of the relations of the National City bank of New York to the National City company. As a result all the papers in the case will be referred to the president.

RIOTERS WRECK A DOZEN ENGLISH AND JEWISH SHOPS

NEWPORT, Eng., Aug. 23.—Rioting occurred tonight at Bargoed, on the Glamorgan border. A dozen English and Jewish shops were wrecked and looted. Troops were called to the assistance of the police and dispersed the wreckers.

No further rioting has occurred in the Monmouthshire valley towns, but the threatening attitude of the mobs at Tredegar and Rasey requires the continued presence there of the soldiers.

In an interview today, Rabbi Leibowitz Ebb, Vale, said: "I cannot explain the attacks on the Jews. I know no reason why these attacks should be made. Some of the Jewish shopkeepers have lived here for 15 or 20 years and are much respected. It is some consolation to feel that the attacks are not shared in by the community in general, but merely led by the Hooligans."

PRODUCES VARIETY OF WHEAT YIELDING 88 BU. TO ACRE

ORANGE, Cal., Aug. 23.—After four years' experimenting at the National Plant Introduction gardens near this city, with a variety of wheat known as Chule, introduced into the United States from Turkestan, H. F. Blanchard, western cereal expert of the department of agriculture, has succeeded in separating a pure wheat seed from the mixture which has contaminated it practically ever since its introduction. In tests just completed the new wheat has averaged 15 to 20 bushels more to the acre than the white Australian variety, which is accepted as the standard by the farmers of the west.

On land at the local experiment station which had been planted to alfalfa and corn for four years, the Chile wheat this season yielded 88 bushels to the acre or about 100 bushels of the Australian produced under exactly similar conditions.

Mr. Blanchard considers the segregation of the new grain one of the greatest forward steps in wheat culture in many years.

WILSON MAY ATTEND LAKE DEDICATION

DENVER, Aug. 23.—James Wilson, secretary of agriculture, has been invited to visit Denver next week to attend the formal dedication of Stanley lake, which is now ready to turn over for use in the great irrigation project of which it is the chief reservoir.

F. W. Taylor, chief engineer for the Denver Reservoir and Irrigation company, which built the big Stanley dam, thinks Mr. Wilson will accept the invitation tendered him some time ago. The chamber of commerce will take part in the ceremony.

TWO KILLED WHEN AUTO FALLS OFF EMBANKMENT

PORTLAND, Ore., Aug. 23.—John Young of Damascus, Ore., and H. A. Cummings of Portland, were killed tonight when the former's automobile plunged off an embankment near this city.

HERING TO BE HEAD OF ORDER OF EAGLES

Insurgents Gain Many Concessions, However, Which Limit President's Power

SAN FRANCISCO, Aug. 23.—Frank E. Hering of South Bend, Ind., will be elected grand worthy president of the Fraternal Order of Eagles tomorrow, without opposition. William J. Brennan of Pittsburg will be made grand worthy vice president and for these and other grand offices there will be only one ticket.

This ends the fiercest struggle for the presidency in the history of the order. J. J. Cusack of San Francisco, who withdrew today his candidacy for the presidency, was followed by other so-called insurgent candidates.

Concessions which led Cusack to withdraw himself included the regulation and supervision of expenditures of grand officers, lack of which has led to the circulation of unappreciated charges, the adoption of a regular annual budget, and the assessment of a per capita tax to meet it, and a rule preventing any grand officer seeking reelection.

The report of the grievance committee recommending that Philadelphia article number 42 be not further recognized was adopted today. This has the effect of cutting off that article from the order. Its members, it was said, may join other orders, or a new charter may be issued.

The report involved the case of a man expelled from the general order at last year's convention at St. Louis. The Philadelphia article was ordered to formulate charges against him, and dismiss him from the local body, instead of which, it is said, the membership conferred upon him marks of particular esteem.

NEGRO FIEND CAUGHT

PURCELL, Okla., Aug. 23.—A mob of 500 men reaching this section of the country for a negro who early tonight assaulted a young married woman named Stagner and set fire to the Stagner home one mile north of Purcell, officers captured a negro who was identified by the woman as her assailant. The negro was spirited away in time to prevent a lynching. It is not known where the negro was taken. The assailant left the young woman in the burning house and she would have perished had it not been that her husband and several farm hands were attracted by the flames and rescued her. The house was destroyed.

HAYTIE EXILES LEAVING

KINGSTON, Jamaica, Aug. 23.—More Haytien exiles, some of them unfriendly to President Leconte, are arriving here. One of them, an adherent of former President Simon, was obliged to wrap himself in a Spanish flag to escape the violence of a mob that threatened him as he was about to leave Hayti.

CUBAN GOVERNMENT GROWING RUCTIONOUS

HAVANA, Aug. 23.—Senor Machado, secretary of government, in a statement issued today, said: "All foreigners in Cuba who insult the government by means of the press, will be expelled from the island." Secretary Machado asserts that when the two editors of the Spanish anarchist organ, La Tierra, are captured, they will be deported. La Tierra today attacked the government on the recent deportation of Spanish newspaper editors.

It is reported that a duel was fought this afternoon by a director of the antigovernment paper El Dia and a director of the pro-government paper El Debate. According to the report pistols were used, but neither duelist was hurt.

AUTO PLUNGES 40 FEET FROM VIADUCT; KILLS ONE

NEW YORK, Aug. 23.—An automobile plunged 40 feet off the Mercer viaduct in Jersey City, tonight, crushing to death Mrs. Sarah Burnett, wife of James T. Burnett, a paper bag manufacturer of Bayonne, N. J., and seriously injuring her husband and their son, Clifford.

EADS BRIDGE AFIRE

ST. LOUIS, Aug. 23.—The east approach to Eads bridge caught fire from a burning warehouse in East St. Louis this afternoon and for a time threatened the wooden portion was threatened. Mayor Lambert, of East St. Louis, who rode to the scene on a coal wagon, donned a fireman's coat and helmet and directed firemen in extinguishing the blaze. The warehouse was a complete loss, the damage amounting to \$25,000.

NEGRO FIEND CAUGHT

PURCELL, Okla., Aug. 23.—A mob of 500 men reaching this section of the country for a negro who early tonight assaulted a young married woman named Stagner and set fire to the Stagner home one mile north of Purcell, officers captured a negro who was identified by the woman as her assailant. The negro was spirited away in time to prevent a lynching. It is not known where the negro was taken. The assailant left the young woman in the burning house and she would have perished had it not been that her husband and several farm hands were attracted by the flames and rescued her. The house was destroyed.

HAYTIE EXILES LEAVING

KINGSTON, Jamaica, Aug. 23.—More Haytien exiles, some of them unfriendly to President Leconte, are arriving here. One of them, an adherent of former President Simon, was obliged to wrap himself in a Spanish flag to escape the violence of a mob that threatened him as he was about to leave Hayti.

AMERICAN TOBACCO CO. FORMING NEW PLANS

NEW YORK, Aug. 23.—Counsel for the American Tobacco company, it was stated here tonight, have formed plans for the dissolution of the corporation and its reestablishment in accordance with a decree of the United States supreme court. The reorganization plan, it is said, will be presented to the United States circuit court on Friday.

Although the plan is still in a tentative form, in its general outline it is said to provide for the separation of the American Tobacco company into a series of concerns that shall have no connection with each other. In this event, securities would be issued, according to the plan, outlined, against each of these separate corporations and exchanged for existing shares of American Tobacco stock.

FRONTENAC HOTEL BURNED BY FIRE

CLAYTON, N. Y., Aug. 23.—The Frontenac hotel, Thousand Islands, one of the finest summer hotels in the country, caught fire tonight and was partially destroyed. The fire started in the servants' quarters and spread quickly.

TOGO STILL PLEASED

REGINA, Sask., Aug. 23.—Admiral Togo arrived here at 10 o'clock tonight, greatly refreshed by his journey through the wheat fields of Canada. "The United States government made me an honored guest through the states as far as Niagara," said the admiral, "and I am enjoying now the hospitality of one of Britain's greatest colonies. On account of my indifferent health I have not been able to accept any courtesies extended me by the

HOW'LL THEY GET THERE?

NEW YORK, Aug. 23.—The unemployed in the United States will meet in Washington, D. C., from September 1 to 4 in annual convention, according to announcement made today.

REGISTRATION FOR LAND IN RESERVATION. 10,899

MINOT, N. D., Aug. 23.—The total registration for land in the Fort Berthold Indian reservation up to date is 10,899. Judge Witten, who is in charge of the registration, estimates that 30,000 will register before the close of the season.

ANOTHER STRIKE SETTLED

LONDON, Aug. 23.—Another strike has been settled here. After conferences lasting all day, at which John Burns, president of the local government board, presided, an agreement was reached on the demands of the men engaged in the short sea trade. The men are expected to return to work immediately.

ALLEGED ASSASSIN CAUGHT

CLEVELAND, O., Aug. 23.—Following the assassination of Patrolman W. C. Chapman last night, detectives to night arrested three Italian garment workers who are on strike and are holding them as suspicious persons. The police are positive that Chapman, who was guarding the home of several nonunion garment workers, was killed by strikers.

635 CHOLERA DEATHS IN ITALY IN FOUR DAYS

CHIASO, Switzerland, Aug. 23.—An official statement issued by the Italian government with regard to the cholera epidemic shows that between August 13 and August 19 inclusive, there were 1,612 cases and 635 deaths from the disease in Italy.

HORSES SAVED FROM FIRE

WASHINGTON, Aug. 23.—Vigorous work by the fire department saved the consular bureau from catching fire to night when flames broke out in a large express stable across the street. Amid great excitement 350 horses were taken from the burning structure. Two spectators sustained minor injury.

S.S.S. PERMANENTLY HEALS SORES AND ULCERS

No matter in what way an old sore or ulcer first commences whether from a wound, cut, or bruise, or from the ulceration of a war pimple or mole, or even if it came without apparent reason, the fact that it does not heal shows that bad blood is responsible for the place. While the circulation remains impure the nerves and tissues of the flesh around the place are constantly being fed with unhealthy matter and the fibres are thus prevented from knitting together and healing. Purify the blood and the place *MUST* heal, its cause having been removed. S.S.S. cures old sores and chronic ulcers because it is the greatest of all blood purifiers. It removes from the circulation every impurity, so enriches the blood that it nourishes the tender, sensitive flesh, and causes a knitting together of all fibrous tissue and thus heals the place. Book on Sores and Ulcers and any medical advice free. S.S.S. is for sale at drug stores. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Miss Eleanor Sears, eligible young society girl of Boston and Newport, whose engagement to marry young Harold Sterling Vanderbilt is expected shortly. Miss Sears is here shown in a most striking picture which was taken in Newport.

**I. T. U. Delegates to
Stop Off in Springs**

Delegates to the International Typographical union convention who did not have a chance to see Colorado Springs and the Union Printers home on the trip to San Francisco, are going to see it on the return trip. Many of the delegates who visited here on the way west are coming back for a second visit.
Word was received in Colorado Springs yesterday that the New York delegation is expected to arrive in the city this evening at 8:30 o'clock. There are 200 delegates on the New York train.

**Canon City Fair This
Year September 12-15**

Word comes from Canon City that the racing and amusements at the Fremont county fair this year will be more elaborate than ever. Already 57 horses, many among the best in the state, have been entered in the races, and a great bunch of running and relay horses are promised. Besides the harness and running races, there will be many wild horse races, bucking contests, wild bull riding, and other western cowboy novelties.
The fair at Canon City will be held this year Tuesday to Friday, September 12 to 15. The big days will be Wednesday, Thursday and Friday, Thursday, September 14, will be fruit day, when thousands of pounds of Canon City's famous fruits will be given away to those attending the fair.
Many people here are planning to attend the celebration. Special rates will be made over all railroads.

SUITS CLEANED \$1.00
Hunters. Phone 1364, 123 N. Tejon.

**MISS HELEN S. RICHEL
WEDS RAILROAD MAN**
Scott W. Baker, chief clerk at the Midland railway office in Colorado City, and Miss Helen S. Richel, daughter of Mr. and Mrs. Hugo A. Richel, 402 North Wabash avenue, were married at Grace Episcopal church at 9 o'clock yesterday morning. Rev. Henry Rutgers Remsen officiating. The young couple left for Glenwood Springs where they will spend their honeymoon. They will make Colorado City their permanent residence.

**PURSE FOR B. F. HACKNEY
TO BE SENT TO FAMILY**

Passengers on the Rock Island train that went into an open switch at Flagler Sunday, made up a purse of \$3 for B. F. Hackney of Greenbriar, Tenn., who died from injuries following the accident. T. B. Wadsworth of Caldwell, Ida., wrote to the police, asking if Hackney had died. He also asked for the names of relatives so that the money could be forwarded to them, in case of death. The required information was given.

TO LECTURE ON POTTERY

The public is invited to attend a free lecture to be given by Professor Frederick H. Rhead, master of pottery, firing, glazing and pottery design in the Academy of Fine Arts at University City, St. Louis, this evening at 8 o'clock in the parish house of the First Congregational church.

THE CRIPPLE CREEK TRIP

Only \$2.50 going and returning "Short Line" or \$3.00 going "Short Line" and returning "Midland Route."

**ROCK ISLAND CHIEFS
ON INSPECTION TRIP**

J. B. Smalley of Topeka, Kan., general superintendent of the southwest division of the Chicago, Rock Island and Pacific railroad, was a visitor in Colorado Springs yesterday morning. He was the guest of F. M. East, superintendent of the Colorado Springs division of the Rock Island.
Mr. Smalley and Mr. East, accompanied by A. R. Brasted and other railroad officials, made the trip to Cripple Creek yesterday afternoon in Mr. Smalley's private car. They spent the day in the district.
"Mr. Smalley's visit is not of official nature," was the announcement given out at the Rock Island office, "any more than he was anxious to inspect the roadbed between Topeka and Colorado Springs and to visit the country."

**Himebaugh Wants Martin
and the Mayor Refuses**

The old argument relative to changes in the civil service rule was reopened at yesterday's meeting of the city council, when Mayor Avery refused to appoint Robert Martin, formerly a member of the police department, to the position of desk sergeant. Commissioner Himebaugh recommended the appointment to fill a vacancy that will arise soon when J. Floyd Neff, acting police clerk, quits the department. Neff was appointed for a short term some weeks ago, when A. A. Pohlner resigned as police clerk.
Himebaugh declares that the civil service commission has declined to hold an examination for police clerk. With discussion of the civil service rules in order, Commissioner Frost pointed out that the work in the various city departments was handicapped because of civil service regulations. Commissioner Whitaker also advocated a change in the rules, believing that a simplified system of application and examination would be more practical.
In giving his reason for not appointing Martin, the mayor said that he does not think there is a vacancy at present in the office of police sergeant. The mayor asked until tomorrow to talk the matter over with the civil service commission.
Commissioner Himebaugh explained he wants Martin appointed sergeant so that the latter might take the position of police clerk which will be left vacant by Neff. Martin at present is a detective for the Rock Island.

**BUFFALO BILL'S WILD
WEST SHOW TOMORROW**

Col. W. F. Cody—Buffalo Bill—will make his farewell visit to Colorado Springs tomorrow at the time of the first visit of the enlarged alliance of Buffalo Bill's Wild West and Pawnee Bill's Far East circuses.
With the exception that there will be no street parade, the regular circus program will be given. There will be two performances; one at 2 o'clock in the afternoon and the other at 8 o'clock in the evening.
The tents will be erected on the Huerfano street circus grounds. Reserved seats will be on sale at Robinson's drug store.

**PHILADELPHIA NEWSPAPER
'RUNS' CARNIVAL PICTURES**

Staid old Philadelphia was given an idea of the energy and activities of Colorado Springs by two views of the carnival which were published in last Sunday's issue of the Philadelphia Ledger. The pictures were those of William T. Tuttle's automobile in the decoration it wore during the auto parade, and a view of P. O. Pappalardo in the Skyline, taken while flying above the Garden of the Gods. Wide-spread advertising of a particularly advantageous nature is being given Colorado Springs through the publication of the illustrated magazines and leading newspapers of the east.

**"Victims of Mysterious
Robbery" Confess Fake**

Called to investigate a "mysterious daylight robbery" at the home of Mr. and Mrs. Skinner Edwards, 734 West Huerfano street, Detective Rallsback yesterday secured a confession from Mrs. Edwards' husband that the affair had been framed up for newspaper publicity with a view of aiding the family over a small financial difficulty.
Edwards reported the alleged robbery to the police two days ago, claiming that while his wife was away from the house thieves had entered and taken \$40 from a drawer in the sideboard. When he returned from work in the evening he called the police, and while the detectives were at the house investigating, Mrs. Edwards returned. She discovered she had \$40, had been stolen. Last night Rallsback said that Edwards confessed that there had been no robbery, and that the scheme had been planned by his wife.

BODIES TAKEN HOME

The bodies of Mr. and Mrs. William A. Skinner, who were frozen to death near the summit of Pikes Peak Monday night in an attempt to walk to the top, were taken to their home in Dallas, Tex., last evening.
During their stay in Colorado Springs Mr. and Mrs. Skinner stopped at the home of C. T. LaBarre, 102 South Weber street. They expected to start home Tuesday, and had planned to walk up the Peak on their last day in Colorado.
So far as the authorities have been able to learn, the Skinners have but one child living, a boy 12 years old. The family's address in Dallas was 305 Carroll street.

**COLORADOANS IN WEST
TO PICNIC SATURDAY**

L. C. Dana, former postmaster and for many years prominent in Colorado Springs business circles as president of the Colorado Association of California, has called a semiannual association meeting and picnic at San Diego, Saturday. Notices were received in Colorado Springs yesterday telling of the approaching outing. George T. Rogers is secretary and treasurer of the association. The committee on entertainment consists of Mrs. J. A. Reed, Mrs. A. N. Hartman, Mrs. C. W. Bennett, Mrs. E. W. Case and Mrs. James Braddish.

**PHI LAMBDAS DECLARE
SCHOOL FACULTIES DO
NOT UNDERSTAND THEM**

George Finley has been selected as temporary local delegate to the national gathering of the members of the Phi Lambda Epsilon fraternity meeting at the Alamo hotel. It is a graduate of the high school.
But we will have another meeting Thursday evening, a member of the Colorado Springs reception committee said, and select a delegate who is an active member of the fraternity.
At today's meeting an attempt will be made to change the nature of the Phi Lambda Epsilon from a social club to a national officers' organization. It is planned, will return each year.
"This is to promote stability," said Harold C. Rolster of Omaha, national president. "It insures that two men of experience will be in office at all times. An erroneous impression has been given out that the officers of the fraternity are selected from high school students. The chapter always makes it a point to select men of business or professional experience for the offices of president, secretary and treasurer. The same rule holds now."
It is the understanding that next year's convention will be held in some Missouri town, probably Joseph. The selection of the next meeting place will be made at today's meeting.
Very little business was transacted at yesterday's meeting. The members of the Alamo hotel were crowded between the hours of 2 and 4 o'clock during the reception given the visitors by the Colorado Springs chapter. About 250 were in attendance. The Denver chapter entertained with a smoker last evening.
"It is my belief," said Mayor H. F. Avery, in his welcoming address, "that the trouble between faculty members and the high school fraternities comes from a misunderstanding of our principles and the work you are doing."
Mayor Avery said that the gates of the city were open and that there were no keys. He invited them to stay as long as they pleased. President Holster made a brief response.
A business session will be held this morning, and following a short conference this afternoon visiting delegates will be taken on a sightseeing trip through the Pikes Peak region.
Two special cars containing delegates from Kansas City and Joplin, Mo., arrived yesterday. Fully 200 members are expected to be in attendance by noon today.
"The placing of Greek letters in front of a fraternal organization in a high school is just like shaking a red flag at a bull, as far as faculty members of a high school are concerned," said J. E. Owens, an Oklahoma City attorney and one of the charter members of the Phi Lambda Epsilon. "The trouble is they do not take the trouble to investigate. Because some educators have said that a certain group of Greek lettered men in his high school are inclined to be snobbish or are cigarette smokers, they take it for granted that all are the same."
"I venture to say that if the members of any of our chapters would erase the Greek letters from their order, and organize under the name of the 'Dickens Literary club' or 'Halcyon Athletic club' the faculty members would be patting them on the shoulder and boosting their meetings. Notwithstanding the fact that we have a literary feature at every meeting and that we have no chapter houses, the faculty members conclude that the members of the Phi Lambda stand for cigarette smoking and a laxity on the part of the students in their studies."

**FISHER AND KRAUSE WILL
HANDLE PALMER ESTATE**

There will be no successor to W. W. Postlethwaite, who announced his resignation a few days ago as secretary of the Colorado Springs company and other Palmer estate enterprises.
"Thomas J. Fisher will take up the duties of the secretary," George A. Krause, resident executor of the Palmer estate announced last night. "The work in regard to the Palmer estate will fall upon my shoulders."
Mr. Postlethwaite resigned to become treasurer of Colorado college.

SOCIETIES AND CLUBS

The Woman's Bible class of the First Presbyterian church will meet tomorrow afternoon at 2 o'clock in the small dining room of the parish house. The hostess will be Mrs. Robert H. Sayce. It is requested that the ladies bring bibles and needles.
The Francis Willard W. C. T. U. will meet this afternoon at 2 o'clock with Mrs. M. N. Sinton, 509 South 21st Place street. The reports of the superintendent will be continued. All interested are invited to attend.
The Ladies Aid society of the Second Congregational church will meet tomorrow afternoon at 2:30 o'clock in the school teachers.

DERBY AND FUNERAL

Eldredge Murphy, formerly a student at Colorado college, is dead at El Paso, Tex., according to information received here yesterday. Full particulars could not be learned.
He was the son of J. H. Murphy, formerly connected with the San Realty company. He was 20 years old, and left Colorado Springs more than a year ago.
Mrs. Caroline M. Clancy, 224 East Cimarron street, grandmother of the young man, left Monday for Des Moines, Ia., on a visit to relatives. An attempt is being made to notify her of the death.
Funeral services of J. M. Dorr were held from the residence of his son, Mark J. Dorr, 211 West Second street, yesterday afternoon. Interment was in Evergreen cemetery.
Samuel Good, 55 years old, and a former resident of this city, died in Salt Lake City yesterday afternoon. The body will be brought here and the funeral probably will be held Saturday afternoon. Mr. Good is survived by a daughter, Mrs. Mattie Mason, and two sons, all of this city.
Earl Wise, aged 10, son of Mrs. Clara Wilson Rickerson, died at the family home, 621 North Cedar street, yesterday morning. The funeral will be held from the undertaking rooms of Fairbanks and Lay tomorrow morning at 9 o'clock. The body will be sent to Monument for burial.

**PEARL MARKET INSTALLS
COOLING PLANT**

The Pearl Market has just installed a new cooling plant in their store at 123 N. Tejon street. Mr. R. G. Harrison, the progressive proprietor, is always on the lookout for the latest market improvements and the care he exercises for his patrons merits the patronage of the public.

PERSONAL MENTION

After a trip to Albuquerque, N. M., W. C. Burke has returned to this city.

**County Sunday Schools
to Meet This Evening**

The Sunday schools of the county will be gathered this evening by the Sunday school members of the First Presbyterian church. Preparations will be made for Sunday school week, September 15-24, and plans will be discussed for the presentation of a special program in each Sunday school of the county next Sunday. At the county work the various divisions of the work will come up for discussion.

OPINION IS RECORDED

City Council Retains Copy Judge Dillon's Opinion Declaring Springs Charter Valid

At yesterday's meeting of the city council the ordinance concerning the protection of food stuffs from flies and other sources of pollution passed final reading. The ordinance will become effective in 10 days.
A copy of Judge John F. Dillon's opinion in which he finds that the Colorado Springs charter is valid, was presented by the city attorney and ordered spread upon the minutes. Judge Dillon's opinion on municipal law is regarded as practically equal to a supreme court decision and it was upon his findings that Rollins and Sons of Denver purchased \$175,000 worth of water bonds recently voted.

YET IT MIGHT HAVE BEEN WORST!

By MR. TOM POWERS
Copyright, by the International News Service, 1911.

OFFICER, YOU ARE CHARGED WITH ALLOWING A PRIVATE DETECTIVE TO ENTER THE ROOM WHERE YOU WERE ON WATCH TO STEAL THE STATES EVIDENCE - WHAT DO YOU SAY?

IF ANY MAN KEM INTO THAT ROOM SIR, HE KEM IN WHEN I WAS ASLEEP.

COLORADO A HEAVY COAL PRODUCER

Among Western States—Increase in 1910 Output.

The production of coal, Colorado first among the states west of Mississippi and seventh among all producing states according to a just completed by Edward V. of the United States geological position among the west- states was strengthened by the made in 1910, for although in of the Rocky Mountain states were larger percentages of in- 1910 over 1909. Colorado's in- tonnage was the largest and re than one-third of the total made in the seven states com- the Rocky Mountain and Great provinces. In the Mississippi states the production in 1910, entially cut down by the miners' which began on April 1 and was a for nearly six months. The

cessation of operations among the miners in the southwestern states created an unusual demand upon the mines of Colorado, New Mexico, and Wyoming. The demand coming prin- cipally from the railroads running be- tween, the Rocky mountains and the Mississippi. There was also a better demand for domestic fuel and consid- erable quantities of coal for winter use were stored in the cellars of house- holders.

The influence of the strike on Colo- rado's coal production was exhibited in an increase of 11.73 per cent, from 10,716,336 short tons in 1909 to 11,972,736 tons in 1910. The value increased from \$14,295,012 to \$17,024,934, a gain of 19.1 per cent. The average price per ton advanced from \$1.33 in 1909 to \$1.42 in 1910.

Las Animas County Yield.
The Trinidad-Raton coal field, the Colorado portion of which is located in Las Animas county, is the most im- portant producer in the state and was credited with more than three-fourths of the total increase for the state in 1910.

1910. This county produces nearly 50 per cent of Colorado's total, con- tributing 5,548,085 short tons in 1910. The county's increase in 1910 over 1909 was 955,121 short tons, or 20.75 per cent. Huertano county, the second largest producer, with 20 per cent of the state's total, increased its output 471,180 tons, or 24.55 per cent.

Gain of 180 Per Cent in Routt County.
Routt county held to the promise made in 1908 with an increase of nearly 180 per cent, from 82,439 tons in 1909 to 2,384,522 tons in 1910. This county in 1909 was credited with an output of 13,000 tons, the production in 1910 being about 20 times that quantity. The completion in 1909 of the Denver, Northwestern & Pacific railway has afforded opportunity for the develop- ment of the coal resources in the north- western part of Colorado, and Routt county is destined to be one of the more important coal-producing counties in the state. The only other county whose production increased more than 100,000 tons. In 1910 was Fremont, which gained 110,162 tons. The in-

crease in these counties were partly offset by a marked decrease in Boulder county, the production of which in 1909 had been unhealthily forced in a keen competition for the Denver trade. The production of this county was increased from 1,067,948 tons in 1908 to 1,322,322 tons in 1909, but with a decided sacrifice in prices. In 1910 the production fell off to 802,769 tons, a decrease of 523,553 tons, or 39.7 per cent, and prices were restored.

BLACKBERRY JAM

Wash and drain a gallon of black- berries. Cook in a preserving kettle with a pint of water until soft, stirring and mashing the fruit with a wooden spoon. Remove, press through a wire sieve into a stone jar. Take a quart of the pulp, put into a kettle with a quart of sugar, bring to a boil, cook rapidly for 20 minutes, pour into small jars and seal when cold. Repeat the process until the pulp is used.

GET 13 CENTS POUND FOR COTTON, ADVICE

WASHINGTON, Aug. 23.—Hold out for 13 cents, is the advice to be formally given to farmers' organiza- tions by a committee consisting of Senators Williams of Mississippi and Owen of Oklahoma, and Representative Burleson of Texas, representing a conference of senators and representa- tives from seven cotton-growing states. A committee will urge the state breaking associations to cooperate against "the bearish movement of the speculators."

What was referred to generally as the "threatening" condition of the cotton market, was thoroughly discussed at meetings today and last night. Among the participants were Senators Williams and Owen, Representative Burleson of Texas, Representative Underwood of Alabama, a Democratic leader of the house, Representative Hatfield of Oklahoma, Representative Hughes of Georgia, Burleson and Ball of Texas, Garrett of Tennessee, Humphreys of Mississippi, and Small of North Carolina. A number of them are large cotton planters. The com- mittee issued a statement which read: "It seemed to be the opinion of all that there was a preconcerted effort being made, principally through the instrumentality of the speculative element of the New York Cotton ex- change, to break down the price of cot- ton. It was the opinion of all that the present statistical condition of cotton did not justify the lowness of present quotations and that the esti- mate of 15,000,000 bales was unjustified by any facts on which a prediction could be safely based and that more- over even if a 15,000,000-bale crop were in sight the world's supply still prob- ably would fall short of the world's demand for cotton to the extent of more than 1,000,000 bales, because of the exhaustion of the present visible supply of carried-over spot cotton."

"This opinion was based on latest advices from India, Egypt, China and other cotton-producing countries. "The committee was also requested to communicate in some way with the presidents of the several state bank- ing institutions in the cotton states, asking them as far as possible to throw their moral and financial support be- hind the effort to counteract the bear- ish movement of the speculators with the view of obtaining a fair price for the farmers' cotton."

GERMAN ENGINEER, HELD BY BANDITS, RESCUED

BERLIN, Aug. 23.—A dispatch from Saloniki, Turkey, today states that Dr. Edmund Richter, the German en- gineer who was captured by Greek band- its and held for a ransom of \$25,000, has been rescued on the Greek frontier and is returning to Saloniki. Dr. Richter was engaged in mapping on Mount Olympus in the wild frontier region between Turkey and Greece under the auspices of a German geo- graphical society, when he fell into the hands of the brigands. On May 25, the capture took place inside Turkish territory, and his escort of Turkish gendarmes was killed. Letters from Lillois, the bandit leader, demanding a ransom, were deliv- ered by Turkish villagers. The German government acted promptly and a small army of Turkish soldiers was sent in pursuit of the bandits. At the same time representa- tives of the German government and of the geographical society scoured the mountains, taking with them the gold for the ransom for the doctor. For weeks the search was without results.

Recently news dispatches stated that the ransom had been abandoned as it had been learned definitely that Rich- ter was held in Tirynas on Greek ter- ritory, the house of one Yannis. The news dispatches also insisted that Dr. Richter, like Miss Ellen Stone, the American missionary who was ran- somed by a Bulgarian band and in 1901 for \$50,000, had been captured not by or- dinary mountain brigands but by the Greek National society, the capture be- ing organized by Captain Strati, for- merly a Greek officer, who once lived in America, and that the affair was an incident of the band warfare be- tween irregular detachments of Greeks and Bulgarians.

THE ORIGIN OF ROCKS

The geologist divides rocks into three general classes—igneous rocks, originating from the molten magma forced upward from the bowels of the earth, such as granite and the various lavas; sedimentary rocks, consisting of disintegrated particles of the igneous rocks which have been re- formed into rocks themselves, such as sandstone; and metamorphic rocks, consisting of igneous or sedimentary rocks whose composition has been greatly changed by intense heat, chem- ical action, or other causes, as for instance, a limestone that has been changed to marble.

Sedimentary rocks, as stated in the geological atlas of the United States geological survey, are usually made up of layers or beds which can be easily separated. These layers are called strata and rocks deposited in such layers are termed stratified. The surface of the earth is not immovable; over wide regions it very slowly rises or sinks with reference to the sea, and shore lines are thereby changed. As a result of upward movement marine sedimentary rocks may become part of the land, and most of our land areas are in fact occupied by rocks originally deposited as sediments in the sea.

Sandstone is perhaps the simplest example of a sedimentary rock. Obvi- ously sandstone was once sand, and again each grain of sand was once a part of some older rock. This sand was first eroded and then deposited and either subjected to great pressure by overlying masses perhaps thousands of feet thick or cemented together by chemical solutions. Where the stone was formed by simple pressure it con- tains a large proportion of open spaces and thus becomes an ideal water bearer. Some sandstones will carry as much as six quarts of water to the cubic foot of stone. In other varieties the interstices may have been filled with cementing material so that

the rock may be for all practical pur- poses almost as dense as granite.

BOYS STOP SMOKING

Edward G. Jenkins, scout master of troop No. 11, Honesdale, Pa., Boy Scouts of America, is highly pleased with the work his 20 boy scouts have done in the last four or five months. He is leading the boys through the various scout activities, and reports that the boys are following out the scout program zealously and eagerly. Though all his boys are required to work during the summer, they make arrangements to get away in camp a week, having earned the money for the expedition. Jenkins had local doc- tors teaching the boys first aid and was helped by one who had spent years in the woods in the northwest. "I," writes Jenkins, "I say that the boys in a short time have developed far beyond my expectations, and that I am as proud of them as any mother could be. I am not telling you enough of what my boys are doing constantly, and the great interest among the people? Of the inveterate cigarette smokers who have quit the habit and are fighting it every day in their hearts. I could write much. One of my boys 14 years old, printed the let- ter head on which I am writing this letter

COLORADO A HEAVY COAL PRODUCER

Among Western States Increase in 1910 Output.

The production of coal, Colorado first among the states west of Mississippi and seventh among all coal-producing states, according to data just completed by Edward W. of the United States geological survey, its position among the western states was strengthened by the made in 1910, for although in of the Rocky Mountain states were larger percentages of in 1910 over 1909, Colorado's in tonnage was the largest and more than one-third of the total made in the seven states com-

cessation of operations among the miners in the southwestern states created an unusual demand upon the mines of Colorado, New Mexico, and Wyoming, the demand coming principally from the railroads running between the Rocky mountains and the Mississippi. There was also a better demand for domestic fuel and considerable quantities of coal for winter use were stored in the cellars of householders.

The influence of the strike on Colorado's coal production was exhibited in an increase of 11.7 per cent, from 10,716,936 short tons in 1909 to 11,972,743 tons in 1910. The value increased from \$14,296,012 to \$17,025,934, a gain of 19.1 per cent. The average price per ton advanced from \$1.33 in 1909 to \$1.42 in 1910.

Las Animas County Yield.

The Trinidad-Raton coal field, the Colorado portion of which is located in Las Animas county, is the most important producer in the state and was credited with more than three-fourths of the total increase for the state in

1910. This county produces nearly 60 per cent of Colorado's total, contributing 5,548,058 short tons in 1910. The county's increase in 1910 over 1909 was 855,121 short tons, or 20.7 per cent. Huerfano county, the second in production, with 20 per cent of the state's total, increased its output 471,180 tons, or 23.5 per cent.

Gain of 180 Per Cent in Routt County.

Routt county held to the promise made in 1909 with an increase of nearly 180 per cent, from 92,439 tons in 1909 to 258,452 tons in 1910. This county in 1908 was credited with an output of 23,000 tons, the production in 1910 being about 20 times that quantity. The completion in 1909 of the Denver, Northwestern & Pacific railway has afforded opportunity for the development of the coal resources in the northwestern part of Colorado, and Routt county is destined to be one of the more important coal-producing counties in the state. The only other county whose production increased more than 100,000 tons in 1910 was Fremont, which gained 110,162 tons. The in-

creases in these counties were partly offset by a marked decrease in Boulder county, the production of which in 1909 was 855,121 short tons, or 20.7 per cent. Huerfano county, the second in production, with 20 per cent of the state's total, increased its output 471,180 tons, or 23.5 per cent.

BLACKBERRY JAM

Wash and drain a gallon of blackberries. Cook in a preserving kettle with a pint of water until soft, stirring and mashing the fruit with a wooden spoon. Remove, press through a wire sieve into a stone jar. Take a quart of the pulp, put into a kettle with a quart of sugar, bring to a boil, cook rapidly for 20 minutes, pour into small jars and seal when cold. Repeat the process until the pulp is used.

GET 13 CENTS POUND FOR COTTON, ADVICE

WASHINGTON, Aug. 23.—"Hold cotton for 13 cents," is the advice to be formally given to farmers' organizations by a committee consisting of Senators Williams of Mississippi and Owen of Oklahoma, and Representative Burleson of Texas, representing a conference of senators and representatives from seven cotton-growing states. A committee will urge the state banking associations to cooperate against "the bearish movement of the speculators."

What was referred to generally as the "threatening condition of the cotton market," was thoroughly discussed at meetings today and last night. Among the participants were Senators Williams and Owen, Representative Burleson of Texas, Representative Heflin of Alabama, Brantley and Hughes of Georgia, Burleson and Ball of Texas, Garrett of Tennessee, Humphreys of Mississippi and Small of North Carolina. A number of them are large cotton planters. The committee issued a statement which read: "It seemed to be the opinion of all that there was a preconcerted effort being made, principally through the instrumentality of the speculative element of the New York Cotton exchange, to break down the price of cotton. It was the opinion of all that the present statistical condition of cotton did not justify the lowness of present quotations, and that the estimate of 15,000,000 bales was unjustified by any facts on which a prediction could be safely based and that more over even if a 15,000,000-bale crop were in sight the world's supply still probably would fall short of the world's demand for cotton to the extent of more than 1,000,000 bales, because of the exhaustion of the present visible supply of carried-over spot cotton."

"This opinion was based on latest advices from India, Egypt, China and other cotton-producing countries."

"This committee was also requested to communicate in some way with the presidents of the several state banking institutions in the cotton states, asking them as far as possible to 'throw their moral and financial support behind the effort to counteract the bearish movement of the speculators with the view of obtaining a fair price for the farmers' cotton.'"

GERMAN ENGINEER, HELD BY BANDITS, RESCUED

BERLIN, Aug. 23.—A dispatch from Saloniki, Turkey, today states that Dr. Edmund Richter, the German engineer who was captured by Greek bandits and held for a ransom of \$25,000, has been rescued on the Greek frontier and is returning to Saloniki. Dr. Richter was engaged in mapping on Mount Olympus in the wild frontier region between Turkey and Greece under the auspices of a German geographical society, when he fell into the hands of the brigands on May 25. The capture took place inside Turkish territory, and his escort of Turkish soldiers was killed. Led from Lillo, the bandit leader, demanding a ransom, were delivered by Turkish villagers. The German government acted promptly and a small army of Turkish soldiers was sent in pursuit of the bandits. At the same time representatives of the German government and of the geographical society scoured the mountains, taking with them the gold for the ransom for the doctor. For weeks the search was without result. Recently news dispatches stated that the pursuit had been abandoned as it had been learned definitely that Richter was held in Tirmavos on Greek territory in the house of one Polygnis. The news dispatches also insisted that Dr. Richter, like Miss Ellen Stone, the American missionary who was ransomed by a Bulgarian band in 1901 for \$5,000, had been captured not by ordinary mountain brigands but by the Greek National society, the capture being organized by Captain Strati, formerly a Greek officer, who once lived in America, and that the affair was an incident of the band warfare between irregular detachments of Greeks and Bulgarians. "The ransom, it was assumed, was destined to further the partition warfare breaking out anew in Macedonia."

THE ORIGIN OF ROCKS

The geologist divides rocks into three general classes—igneous rocks, originating from the molten magma forced upward from the bowels of the earth, such as granite and the various lavas; sedimentary rocks, consisting of disintegrated particles of the igneous rocks which have been reformed into rocks themselves, such as sandstones and metamorphic rocks, consisting of igneous or sedimentary rocks whose composition has been greatly changed by intense heat, chemical action, or other causes, as, for instance, a limestone that has been changed to marble. Sedimentary rocks, as stated in the geologic atlas of the United States geological survey, are usually made up of layers or beds which can be easily separated. These layers are called strata and rocks deposited in such layers are termed stratified. The surface of the earth is not immovable; over wide regions it very slowly rises or sinks with reference to the sea, and slow lines are thereby changed. As a result of upward movement marine sedimentary rocks may become part of the land, and most of our land areas are in fact occupied by rocks originally deposited as sediments in the sea. Sandstone is perhaps the simplest example of a sedimentary rock. Obviously sandstone was once sand, and again each grain of sand was once a part of some older rock. This sand was first eroded and then deposited and either subjected to great pressure by overlying masses perhaps thousands of feet thick or cemented together by chemical solutions. Where the stone was formed by simple pressure it contains a large proportion of open spaces and thus becomes an ideal water bearer. Some sandstones will carry as much as six quarts of water to the cubic foot of stone. In other varieties the interstices may have been filled with cementing material so that

BOYS STOP SMOKING

Edward G. Jenkins, scout master of troop No. 11, Honesdale, Pa., Boy Scouts of America, is highly pleased with the work his 20 boy scouts have done in the last four or five months. He is leading the boys through the various scout activities, and reports that the boys are following out the scout program zealously and eagerly. Though all his boys are required to work during the summer, they make arrangements to get away in camp for a week, having earned the money for the expedition. Jenkins had local doctors teaching the boys first aid and was helped by one who had spent years in the woods in the northwest. "If," writes Jenkins, "I say that the boys in a short time have developed far beyond my expectations, and that I am as proud of them as any mother could be, am I not telling you enough of what my boys are doing constantly and the great interest among the people? Of the inveterate cigarette smokers who have quit the habit and are fighting it every day in their hearts, I could write much. One of my boys, 14 years old, printed the letter head on which I am writing this

Welcome Words To Women

If you are an intelligent thinking woman, in need of relief from weakness, nervousness, pain and suffering, then it means much to you that there is one tried and true honest square-deal medicine OF KNOWN COMPOSITION, sold by druggists for the cure of woman's ills. The makers of

Dr. Pierce's Favorite Prescription

for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible endorsement of the leading and standard authorities of the several schools of practice, are perfectly willing, and in fact, are only too glad to print, as they do, the formula, or list of ingredients, of which it is composed, in plain English, on every bottle-wrapper. Is this not a significant fact worthy of careful consideration?

Women use Dr. Pierce's Favorite Prescription in preference to all other advocated medicines sold by druggists for their peculiar weaknesses and ailments because it is

THE ONE REMEDY which contains no alcohol or habit-forming drugs, is not anything like advertised stimulants or patent medicines.
